Evaluation of Whether A Site-wide Environmental Impact Statement Would Facilitate Future NEPA Compliance Efforts

The mission for this site was changed under the NNSA re-organization, December 23, 2002 but the operations of the site remain bounded as analyzed in the Sandia National Laboratories, New Mexico FEIS (October 1999). During the five year review of the FEIS [§1021.330], operations at the Service Center will also be reviewed for substantial changes or significant new circumstances [§1021.314]. Activities administered by the Service Center but offsite are reviewed for NEPA compliance. At this time, there are no planned NEPA documents as stated in the sections above.
