United States Government **Department of Energy**

memorandum

DATE: FEB 3 2006

REPLY ATTN OF: EM-24 (S. Frank, 202-586-7478)

SUBJECT: Annual National Environmental Policy Act Planning Summary for the Office of Environmental Management

TO: John Spitaleri Shaw, Assistant Secretary for Environment, Safety and Health

In accordance with Department of Energy (DOE) Order 451.1B, I am providing the Office of Environmental Management's (EM) Headquarters' (HQ) Annual National Environmental Policy Act (NEPA) Planning Summary for 2006. This EM Annual NEPA Planning Summary for 2006 includes EM HQ and Carlsbad, Ohio, Savannah River, Portsmouth/Paducah, Richland, and the Office of River Protection field offices, for which EM is the lead Program Secretarial Office. Also included are EM projects at the Idaho National Laboratory. There are no NEPA actions planned at Rocky Flats or for the EM projects at Oak Ridge.

This summary briefly describes the status of any ongoing or projected EM NEPA compliance activities--any Environmental Assessments expected to be prepared in the forthcoming 12 months and any Environmental Impact Statements expected to be prepared in the next 24 months. Several ongoing and projected Supplement Analyses are also addressed.

If you have any further questions, please contact me at (202) 586-0755.

Mark A. Gilbertson
Deputy Assistant Secretary for
Environmental Cleanup and Acceleration
Office of Environmental Management

*Title, Location	Estimated Cost	Estimated Schedule (**NEPA Milestones)		Description
Greater-Than-Class C Low-Level Radioactive Waste (GTCC LLW) Environmental Impact Statement	TBD	Determination Date:		Greater-Than-Class C Low-Level Radioactive Waste (GTCC LLW) Disposal EIS. Pursuant to the Low-Level Radioactive Waste Policy Amendments Act, DOE will prepare an EIS to examine the environmental impacts of developing disposal capability for GTCC LLW. DOE issued an Advance Notice of Intent on May 11, 2005, requesting comments from the public and interested agencies about the proposed EIS, the . range of disposal alternatives, and the potential issues. DOE will submit a report to Congress by August 8, 2006, on the estimated cost and proposed schedule. US EPA will be a cooperating agency.

*Title, Location	Estimated Cost	Estimated Schedule		Description
Disposition of Scrap Metals Programmatic Environmental Impact Statement	TBD	Determination Date:		This EIS will help DOE determine whether to allow the release of scrap metal potentially having residual radioactivity into general commerce. Activity on the PEIS was put on hold pending a decision from the NRC regarding its rulemaking on controlling the disposal of solid materials from licensees. That rulemaking has been delayed, as has further work on the PEIS.

Ohio Field Office West Valley Demonstration Project (WVDP)
January 2006

Title, Location	Estimated Cost	Estimated NEPA Milestones*	Description
Decommissioning and/or Long-Term Stewardship EIS	$3600 K	**Determination Date:** **NOI: March 2003** **Scoping: March 2003 – April 2003** **Draft: 2006** **Hearings:2006** **Final:2008** **ROD:2008**	The West Valley Decommissioning and or Long-term Stewardship EIS will support decision making associated with DOE's responsibilities defined in the West Valley Demonstration Project Act (PL96-368). Three Action alternatives and two No Action Alternatives were identified for evaluation in the March 13, 2003 Federal Register Notice. Public Scoping was completed on April 28, 2003 and included public scoping meetings on April 9th and 10th, 2003. Following public scoping and internal DOE scoping, four Action alternatives and one no Action Alternative was selected for analysis. A draft EIS for DOE and Cooperating Agency under review. A public review planned for early 2007. A Final EIS and subsequent Record of Decision are planned for late 2008.
Waste Management Supplement Analysis	< $10K	**Supplemental Analysis** **Determination Date: Dec 2005** **Approval: Feb 2006**	Later this month (January 2005), DOE-WV plans to begin preparation of a Supplement Analysis to determine whether there are substantial changes to the proposed action considered in the Waste Management EIS. Specifically, the shipment of large Vitrification components such as the glass melter. The Supplement Analysis will evaluate additional disposal locations not analyzed in the Waste Management EIS.

Annual NEPA Planning Summary Status of Ongoing NEPA Compliance Activities: Environmental Impact Statements

Idaho Operations Office

Jan-06

*Title, Location	Estimated Cost	Estimated Schedule		Description
Idaho High-Level Waste and Facilities Disposition Environmental Impact Statement (DOE/EIS-0287)- Idaho Nuclear Technology and Engineering Center on the Idaho National Laboratory		Determination Date:	9-Jun-97	The EIS presented an analysis of alternatives for the treatment and disposition of calcine, sodium-bearing waste, and newly generated liquid waste. The EIS also presented an analysis of closure alternatives for facilities related to the High-Level Waste Program at the Idaho Nuclear Technology and Engineering Center. First ROD was issued on 12/13/2005.
		NOI:	9/19/1997	
		Scoping:	08/19-11/24/1997	
		Draft	Jan-00	
		Hearings	2/7-3/2/2000	
		Final	9/31/2002	
	$15,000,000	ROD	2nd ROD 07/31/2006, 3rd ROD 12/31/2009	The 2nd ROD for Tank Farm Facility closure will be issued in coordination with the Secretary of Energy's determination, in consultation with NRC, under Section 3116 of the NDAA. The 3rd ROD will address high-level waste calcine disposition.

		ROD		
Supplement Analysis of the INL Site Portion of the April 1995 Programmatic Spent Nuclear Fuel and Idaho National Engineering Laboratory Environmental Restoration and Waste Management Programs Final Environmental Impact Statement.		Supplement Analysis:	DOE/EIS-0203-F-SA-02	The supplement analysis was completed to determine if the 1995 PSNF and INEL ER& WM Programs Final EIS remains adequate. The conclusion was the EIS remains adequate and a new or supplemental EIS is not required.
		Determination Date:	6/30/2005	
	$0.00	Approval:	6/30/2005	
Supplement Analysis Regarding Remote-Handled Transuranic Waste Identified in the DOE Programmatic Spent Nuclear Fuel and Idaho National Engineering Laboratory Environmental Restoration and Waste Management Programs Final Environmental Impact Statement and the Advanced Mixed Waste Treatment Project Final Environmental Impact Statement		Supplement Analysis:	DOE EIS-0203-F-SA-03; DOE/EIS-0290-SA-01	The supplement analysis is being completed to determine if changing the location of Remote-Handled Transuranic Waste Operations required additional NEPA review.
		Determination Date:	1/31/2006	
	$24,000	Approval:	1/31/2006	
	Total Estimated Cost			
	$15,024,000.00
